IT'S TIME FOR FASTER INTERNET IN LAKE CONROE HILLS

ENJOY 10X FASTER SPEEDS WITH FIBER BROADBAND FROM TACHUS

Tired of slow Internet, unreliable connections, and paying 100% of your bill for 30% of your expected service every month? Tachus has the solution! We provide up to 1 Gbps download and upload speeds with 99.99% uptime and reliability. Your entire family can stream their favorite media on demand with no lag across multiple devices at the same time! Your home Internet will always be on when you need it, just like your water.

We are the only provider offering Fiber to the Home broadband Internet in the Lake Conroe Area with a 100% fiber optic network all the way to your home.

- Enjoy commercial-level reliability and speeds at residential prices.
- Our underground fiber network ensures that customers never experience any degradation or outages due to inclement weather. Tachus had ZERO minutes of down time during hurricane Harvey.
- We've had only 15 total minutes of unplanned downtime in almost 4 years of operation – including ZERO outages during Hurricane Harvey.

WE HEARD YOU LAKE CONROE HILLS! WHAT'S NEXT?

Tachus needs the community support to bring fiber internet into your homes. We start with collecting a \$20 registration fee from residents to ensure we have enough community opt-in to build our extensive fiber network. Once the community has reached the needed goal of opt-ins,, the design and permitting process then starts. All registered residents will receive progress updates throughout the construction process. Once construction is complete someone will call you to schedule your installation. We will install fiber directly to your house and we provide a fiber modem free of charge.
